This article was originally published online and in print on 11 December 2013 with a typographical error in Eq. (1). In the numerator of the fraction, m_1 should be m_i . The correct Eq. (1) should read

$$a_i = \frac{1/m_i}{1/m_1 + 1/m_2 + 1/m_3}, \quad i = 1, 2, \text{ or } 3.$$
 (1)

AIP Publishing apologizes for this error. All online versions of the article were corrected on 23 July 2014.
